

# DI Finances: The European leader in **Transition Financial Management**

---

DI Finances

# Financial Experts **ready to be integrated** into your teams

DI Finances can offer you the services of senior finance managers, on a full-time or part-time basis.

Our experts are full-time employees of DI Finances and benefit from our specific training programs.

Their approach and methodology, **which are in line with Grant Thornton's risk management policies**, allow them to adapt situations, varying from the most commonplace to the most extraordinary.

They are fully integrated into your team to manage any situation you may face.

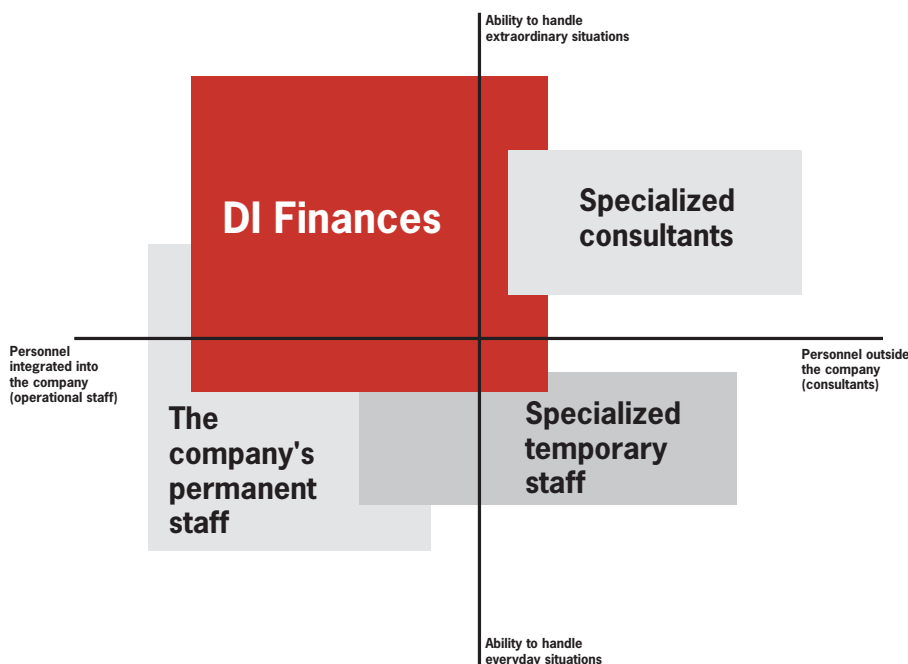

Our experts carry out **customised engagements** which:

- Allow the efficient and effective management of the companies position and production of reliable financial information,
- Help improve the company's performance and develop its value.

## **A centre of financial management experts**

DI Finances can take responsibility for the entire financial function and handle all specific or exceptional projects for Finance Departments. We can provide you with assistance on either a full-time or part-time basis depending on your needs.

# In tune with companies, investors, their financial partners and advisors

## Added value with DI Finances

Financial Experts share the company's values and offer it the benefits of their own experience of operational financial management.

### *Ethics*

- Absolute discretion and complete confidentiality are a contractual obligation inherent in DI Finances' activity.
- In order to remain completely objective, Financial Experts undertake not to apply for positions in client companies.
- DI Finances acts in full compliance with the rules of ethics and the spirit of the new French Financial Security Act.

### *Operationality and security*

- The diagnostic reviews and action plans presented by DI Finances offer concrete solutions that are realistic in terms of costs and implementation times.
- Financial Experts always act in tandem with at least one Assignment Partner. They may work in collaboration with other outside consultants.

### *Personalised assistance*

- Coaching CFOs when they take up their positions, in particular when they are faced with difficult operational problems.
- Assistance to CEOs in dealing with all the problems related to the management of their company, and also with regard to the structuring and recruitment of their finance department teams.

## Natural synergies with Grant Thornton's other services

Grant Thornton has five service lines: Auditing - legal & contractual, Specialist Advisory Services, Outsourcing, Legal & Tax advisory services and Accounting Services.

Specialist Advisory Services are dedicated to providing ongoing assistance in transitions and successions and helping companies to improve their performance (Transactions Services, Corporate Finance, Prevention and Restructuring, etc.).

DI Finances offers its operationally-oriented services to complete the services offered by Grant Thornton to businesses and investors.

**We act as a partner for our clients to meet both short-term and long-term objectives.**
